

**PACES IS THE MOST DIFFICUT COMPONENT OF MRCP WHICH
OSLERS ACADEMY HAS MASTERED AND IS ONE OF THE BEST IN THE WORLD**

I want to express many thanks and greatfulness to all doctors and administrative staff in Osler's Academy who taught me and guide me how to prepare for successful PACES. I passed with first trial with such high score (164/172). I have been contacted from my colleagues from Kurdistan-Iraq, told them to choose Osler's Academy as it is the best.

Dr Hewa Ahmed Hama
Kurdistan Board of Medical Specialities-Iraq

I am very glad to share with you the happy news of passing MRCP PACES in first attempt. And am equally glad to declare that all the teaching and no teaching staff at Osler's Academy played a huge role in making that possible. The structured approach of the course, the volume of patients, commitment and passion of the teachers. Every aspect is simply exemplary. One would be examining and presenting almost 70 patients covering all the clinical skills to very experienced teachers and this experience is invaluable in exam preparation.

Dr. Swarna Deepak
Critical Care Consultant in Apollo Jubilee Hills, Hyderabad

Thankyou Osler's Academy. I Had learnt all from basic. I feel that the teachers are very professional and tailored for each individual. I had failed before i took osler on my PACES attempt. Then they corrected my hands on how to examine how to present, from there i feel i got more confidence and know what to improve from my skills. Teachers are experienced consultants they know what to do with a sound knowledge. You can feel they care and want us to advance.

Dr. Miria Hastuti Soedarsono
Padjadjaran University- Indonesia

I am happy to inform that i have passed PACES as i got my result on 7th Dec. I am really thankful to Osler's Academy and its teachers for helping me out with the preparation and my special thanks to Mahender Sir for teaching me the approach towards station. I will be recommending Osler's to all of my colleagues preparing for PACES.

Dr. Hashim Abbas
Jawaharlal Nehru Medical College, Aligarh

Cleared PACES in first Attempt My name is Dr. Lee Zhao Ming from Malaysia. I joined a PACES course organized by Osler's Academy in Hyderabad last October 2017. I would like to inform that I have recently passed my PACES at first attempt. I thank the faculty for their help in setting a good foundation for my PACES preparation leading to success.

Lee Zhao Ming
University of Dundee, Scotland

It is with humble gratitude that I wish to inform you that I have passed the MRCP PACES in Oct-2018, scoring 152/172. A diamond no matter the size requires careful polishing & finer refining, to enable value realization & make it worthwhile. The more perfection imparted to this process more the value enhancement. Similarly, all the GURUS & YOU, Specially at Oslers Academy perform this task to the highest level of professionalism & commitment. I wish that I had known of such an illuminating course earlier. Thank you for making my dream come true.

Dr. Suma Karinjappallil
Trivandrum Medical College, Kerala

OVER 500 SUCCESS STORIES - SOME FROM UK

Dr. Keerthi
MRCP UK
Specialist, Registrar Endocrinology, Sussex, NHS

I was one of the first clinical primer trainees at Osler's Academy. I am very pleased to have been trained by the Oslers Academy faculty especially Dr. Mahender sir. I am currently specialist registrar in endocrinology (CCT) and the foundation I received at the academy has contributed significantly not only to gain entry into the UK but progress rapidly the position where I am now. I wish all my junior batches the very best.

My association with Osler's Academy has been with the excellent PACES training I received as well as a junior faculty. The association is the Osler's Academy and University hospital of Wales UHW. Cardiff helped me get my first job in the United Kingdom. It certainly helped me to progress and obtain a job of my choice. I am enjoying my learning and work at the Royal Brompton Hospitals, Harefield, London which is the one of the most renowned institutions in the world. I enjoy my teaching at Osler's and look forward to be part of the academy's efforts to train the next generation.

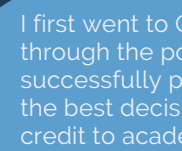

Dr. Roopam Sehajpal
MRCP UK
Registrar, Royal Brompton Hospital, Harefield

Dr. Sai Krishna
MRCP UK
Clinical Fellow, UHW, Cardiff

I strongly recommend every junior doctor aspiring an international career to train at the Osler's clinical Primer programme. The short duration training I received was so much adequate to help me clear the MRCP. A 2 year structured program in which I reach some Nephrology is super adequate for the trainee to be able to perform in the demanding UK hospitals. Passing MRCP alone will not help Excel in the UK. I strongly recommend to make best utilisation of the Academy.

Dr. Spoorthi
MRCP UK
Clinical Fellow, UHW, Cardiff

I first went to Osler's Academy in 2015 asking for guidance on what to do as I was not getting Medicine through the post graduate Entrance. I was advised to join the clinical primer programme which I did and successfully passed my MRCP in 2018 and started my career at UHW, Cardiff in 2019. Looking back that was the best decision. Today I am confident of returning back to India and practice independently. I give all the credit to academy and to its principal architect Dr. Mahender sir in guiding me and helping me at every step. I am glad to see that the trainee numbers have crossed 35 in 2020 while it was about 6 in 2015. I wish a lot more junior doctors like me benefit from the academy.

Dr. Murali
MRCP UK
Clinical Fellow, UHW, Cardiff

I strongly recommend every junior doctor aspiring an international career to train at the Osler's clinical Primer programme. The training I received was so much adequate to help me clear the MRCP. A 2 year structured clinical training during which I learnt bed side skills and patient management helped me to perform in the demanding UK hospitals. Passing MRCP alone will not help in the career progression in the UK. I strongly recommend you to make best utilisation of your time at the Academy.

My association with Osler's from being an extended PACES trainee to being a junior faculty is one of the nicest things that happened in my life. After training at the academy and passing MRCP in 2019, I took up the job of a clinical fellow at UHW, Cardiff in 2020. The encouragement and support I received from the Academy especially Mahender sir, helped me to understand the UK system of Medicine so that I could be working as a safe and efficient doctor in a completely new and demanding system. I am also privileged to be the junior faculty and take pride in training, guiding and helping my juniors. I look forward to seeing them all in the UK.

Dr. Soujanya
MRCP UK
Clinical Fellow, UHW, Cardiff

OSLER'S ACADEMY

Osler's Clinical Primer
MRCP/MRCS(UK)

**AN ALTERNATIVE PARALLEL
POSTGRADUATE TRAINING**

www.oslersacademy.com

WHY CHOOSE MRCP/MRCS

- ✓ Looking for an International Career?
- ✓ Looking for one of the most affordable post graduate training programmes in India?
- ✓ Looking at pursuing higher medical training in the UK without PLAB exam?
- ✓ Looking for an Academy that is committed to your training until you obtain MRCP/MRCS ?
- ✓ Looking for an alternate and more reassuring pathway to the US via UK?
- ✓ Already into DNB/MD but would like to have simultaneous additional qualification?
- ✓ Want additional clinical skills & training to collaterally help with DNB/MD exam?

IF THE ANSWER TO ANY OF THESE QUESTIONS IS YES, THEN THIS IS FOR YOU

CLINICAL PRIMER-MRCP/ MRCS

WHO WE ARE

Osler's Academy is the pioneer in India & Asia in running parallel post graduate programs for international MRCP/MRCS UK qualifications. Till date, we successfully trained over 500 doctors at various levels to achieve their goals.

OUR PROGRAMME

- ✓ Faculty trained, worked and taught in UK & USA and have an outstanding track record. They are highly committed to teaching and training.
- ✓ Most of the teaching is 'hands on' with trainees being taught from very basic level such as history taking, physical examination and case sheet writing.
- ✓ It is mandatory for the students to work as duty doctors in any of their chosen hospitals.
- ✓ Programme comprises hospital based and academy based learning as well as regular assessments and monitoring by our faculty and mentors.
- ✓ Closely tracks the structured training programs of UK, making it easier for their further career progression.
- ✓ Our program is the first in the country and the most successful and affordable too.

FEW OF OUR PRESENT 35 TRAINEES SAY...

Dr.G Lokesh Kumar
Clinical Primer MRCP-2021
Rajiv Gandhi Institute of Medical Sciences(RIMS), Ongole

A very good, structured program with clinically oriented teaching. I like the bedside tasks which are helping us prepare from the first day for PACES. Regular monitoring by faculty and administration.

Dr.Pranesh R
Clinical Primer MRCP-2021
Pondicherry Institute of Medical Sciences,Pondicherry

Clinical oriented teaching, high concern for students, best teachers/faculty. Extremely good and satisfied. Totally changed my approach towards Medicine, so thankful.

Dr.Soiram
Clinical Primer MRCP-2021
Cholmeda Anand Rao Institute of Medical Sciences

Very good and thorough explanation of subject and concepts. Excellent teaching of clinical aspects and providing the foundation for good clinical practice. Constant support, mentoring, and monitoring of our progress by faculty.

Dr.Kiranmai
Clinical Primer MRCP-2021
Sri Devaraj Urs Medical College, Kolar

1. Its a highly clinical orientated program with regular clinical case discussions and student interaction.
2. Teachers have been patient to correct our mistakes
3. On some busy days on ward, it can be hectic to finish the tasks or clinical case discussion within the time limit.

Dr.Manjunath
(DNB Pulmonary Medicine)
Clinical Primer MRCP-2019
Kempegowda Institute of Medical Sciences, Bangalore

1. High Quality teaching by UK trained faculty
2. Excellent program for young doctors who are interested to excel in Medicine. Best MRCP program available in India
3. Passed my Parts 1 & 2. I am eagerly waiting to do PACES.

Dr.Mounica
Clinical Primer MRCP-2021
ACSR Government Medical College,Nellore

I am really glad I chose to join this Academy as everything is not targeted for exam purpose but to become better medical practitioner through quality and practical oriented teaching and case presentations. Monitoring by the Academy is really good, teaching with clear explanations and ways to improve our progress are advised.

Dr.Aditya
Clinical Primer MRCP-2020
Kakatiya Medical College

The program puts more emphasis on learning by the bedside and that actually is kind of true. The way I approach learning has changed a lot in this year and a half with them and I'm enjoying the process. The Academy always backs you up whenever you need the support of any kind.

Dr.Bunny
Clinical Primer MRCP-2020
Kakatiya Medical College

The structured training programme has been good so far. Classes of Dr Mahender sir, Dr Kavitha mam and Dr Aruna mam are immensely helpful for the examinations.
